DETAILED ACTION

Response to Amendment

The rejection of claims 1-9, 11, and 13-20 under 35 U.S.C. 103(a) as being unpatentable over Kirchmeyer et al, 5,811,480 in view of Piret 6,025,073 is withdrawn in view of applicants' amendment.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More specifically, claim 2 sets forth several polymers that the film forming polymer can be selected from; however, claim 1 requires that the film forming polymer be polyamide. Accordingly, the metes and bounds for which patent protection is being sought are not clear.

Allowable Subject Matter

3. Claims 1 and 3-21 are allowed over the prior art currently of record.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art currently of record does not teach or suggest a sizing composition comprising a polyamide film forming polymer and a water dispersible polyether based polyurethane solution, wherein each component of the instant size composition is present in the requisite amounts. Accordingly, the prior art of record does not teach a

method of making said sizing composition, (claim 11), a method of forming a sized glass fiber by applying said sizing composition onto at least one glass fiber (claim 18) or a dry sizing composition essentially as claimed (claim 20).
